

Farmers Fertilizer **Calphos 4-2-6+5Ca** Custom Fertilizer Blend

Complete Fertilizer + 5% Calcium

Farmers Fertilizer's **Calphos** is a proprietary concentrated liquid solution of Nitrogen, Phosphorus and Potassium with 5% Calcium.

Calphos is an excellent tank mix companion when used in conjunction with Farmers Fertilizer's **5-0-0-MGB**, **SeaDex** or other Farmers Fertilizer custom fertilizer blends.

Calphos is an effective acidifying and buffering agent. High pH conditions with water carriers provide the potential for some pesticides to deteriorate and lose their effectiveness through alkaline hydrolysis. Calphos helps your pesticide spray retain its maximum effectiveness by lowering the pH and buffering the solution to keep the pH stable. Calphos also enhances the penetration and absorption of some pesticides and foliar-applied nutrients

Always consult your P.C.A. or your Farmers Fertilizer representative before making an application. A compatibility test is recommended for combinations that have not been used previously.

For specific usage rates and application information contact your Farmers Fertilizer sales representative:

KEY INFORMATION

General: Custom Fertilizer Blend
Manufacturer: Farmers Fertilizer & Supply, Inc.

EPA Registration Number:

Product Types: Fertilizer
Foliar Nutrient
Nutrient

Guaranteed Analysis: 4.00% - Nitrogen (N)
2.00% - Phosphorous (P₂O₅)
6.00% - Potassium (K₂O)
5.00% - Calcium (Ca)

CONTAINS NON-PLANT FOOD INGREDIENTS

Humic Acid yes
Fulvic Acid yes

Physical State: liquid 10.82 lbs/gal
Signal Word: CAUTION
Registered States: not required
Packaging Types: Bulk
