

Farmers Fertilizer **SeaDex** Custom Fertilizer Blend

SeaDex is a soluble Seaweed Extract derived from fresh *ascophyllum nodosum*.

SeaDex can help you produce a healthier, more productive plant even in times of stress including drought, salinity and temperature.

SeaDex can be selectively mixed with other liquid fertilizers and custom fertilizer blends.

Soil applications may be made through drip sprinkler systems, sprayed in a band, applied to seed rows at planting time, or in transplant solution.

Foliar Applications: **SeaDex** is a concentrated solution and should be diluted with water before use to ensure uniform coverage.

For specific usage rates and application information contact your Farmers Fertilizer sales representative:
